How to Clean Ears Correctly and Safely

1. Pull up gently but firmly on earflap.
2. Apply ear cleaner into ear.
3. Massage up and out on ear canal. If you don't hear sucking sound, add more solution and massage again.
4. Gently tuck cotton ball into ear canal and massage ear up and out again.
5. Remove cotton ball. Repeat until cotton ball comes out clean.
6. Apply any medication as directed.

Wipe tip of cleaner or medication bottles with alcohol after use.
